

UNIT 1 Remote

SIGNAL YOUR INTENTIONS

The UNIT 1 Remote enables turn signals and automatic brake lights across all your UNIT 1 devices. Attached to the handlebar via the included dock, it features oversized buttons that can be used to turn signal without taking your eyes of the road or removing your hands from the handlebar. Brake lights are automatic, with 3 user-selectable levels of sensitivity. *Bonus:* use your UNIT 1 Remote to turn on & off all your UNIT 1 devices simultaneously by holding down both buttons.
